

Thank you for buying NDP3® Speech Builder

Installation ... please read this first (or give to your IT guru)

This software is for Windows and Mac. **Your License Key** is printed on the reverse of the CD package or, if you downloaded the software, was sent by email.

Before installing NDP3 Speech Builder, your computer needs to have a copy of the **Adobe AIR Application Installer** running.

Windows Locate the file **AdobeAIRInstaller.exe** on the CD and double-click it (or download it from <http://get.adobe.com/air/>) and follow the on-screen instructions to install it.

Once this is installed, locate the file **NDP3_Speech_Builder_113.AIR**

Right-click the file and click on the 'Install' option. Follow the on-screen instructions. Windows will add a Speech Builder icon to your desktop.

Mac OS X Locate the file **AdobeAIR.dmg** on the CD and double-click it (or download it from <http://get.adobe.com/air/>) and follow the on-screen instructions.

Once this is installed, locate the file **NDP3_Speech_Builder_113.AIR**

Right-click the file, click 'Open With' and choose 'Adobe AIR Application Installer'. Follow the on-screen instructions. The software is installed into the Applications folder. You can add it to the dock when it's running: right-click the Speech Builder icon in the dock, choose Options, and click 'keep in dock.'

Help and support beyond the user guide

- The NDP3 Speech Builder support page is **www.ndp3.org/support.html**
- The Speech Builder Introduction and Help videos are on the CD and our support page.
- If you need help or have any questions, please email **help@ndp3.org**
- We always welcome your comments and suggestions **feedback@ndp3.org**
